

Felix Family Village Thailand

Newsletter • October 2011

www.caminulfelix.org

Dear sponsors and friends!

Time has come for us to once again send you a newsletter from Felix Village, and we do so with great joy and gratitude. If it were not for you, dear sponsors and friends who are with us with your great support for the work, it would not grow and move forward as it does. You have understood the importance of doing something for a child; an action that leads to a whole new life and a new future.

There is an interpretation of what the word "children" means in the Biblical sense. A child means: families, nations and future generations. That's exactly what we think and work for. We believe that our children, who now have the opportunity to grow up in a family where they are loved and receive the care a child needs, will become tomorrow's leaders. A generation of young people will give their testimony about changing something negative to positive.

The families that we now have in Felix Village are proof of how well children and parents grow together as a family. Our children can develop in the environment that a child has the right to do. Here's Mom, Dad and siblings who listen and give good advice. In the neighboring families, they have their best friends to play with. We can also see how our children become copies

of their parents. Parents have become a model and an example of who the children want to be like. It is often easy to see which family a child belongs, by its way of being.

As you can see in the photos in the newsletter, the fathers take a great responsibility. They are happy and very proud of their young children. Often you meet the fathers on the grounds of the village with children in prams or holding them in their arms. The parents are at home and waiting when the kids come home from school and help them with homework and give advice. After playing football or doing anything else fun together, it's time to sleep. We are so grateful that we have these fine mothers and fathers in the ministry.

The Felix parents take a great responsibility to inform and present the project by involving their families in churches, media and through other ways in Thailand. It is important that we are present and show that the family model applies to all children, wherever you live in our world.

We hope and intend that we soon can start building the next house, where our seventh family will move into. The new parent couple is eagerly looking forward, too. At the same time we plan to start building on the Multi Purpose Building. Gratitude and thanks from the Felix Village's parents to all donors and sponsors who made and make this work possible.

As we announced in our last newsletter, there is a Felix tour trip planned in the U.S. during September-October. We hope and believe that many sponsors and new contacts will come in during our trip.

Although there are a few months left until Christmas, I want to remind you by a call to action. For many it is a time of stress when you think about what to give as a Christmas present. Solve your Christmas gifts-troubles by giving your children, grandchildren, family, friends, employees a gift for Felix Village. Or a sponsor's commitment. This will be a gift of lasting value. You invest for the future. Please contact you to us if you want a card from Felix village that you can use when you give your donation to a friend.

God bless

Is it your birthday or will you celebrate another occasion? Instead of receiving things, flower and gifts, you can change the lives of a child or family in Felix Family Village in Thailand.

This will be your best gift!
